Fourth B.H.M.S. (2015) Examination (Phase-III) Winter - 2021 HOMOEOPATHIC MATERIA MEDICA - I (Paper-I)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All** questions are **compulsory**.
 - 4) The number to the **right** indicates **full** marks.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (Solve any 4 Out of 6) : [4 × 5 = 20]

- a) Describe the A/F and modalities of Dulcamara.
- b) Describe the sources of Homoeopathic Materia Medica
- c) Describe the guiding indications of Thuja Occidentalis.
- d) Describe the indication of Gelsemium in Fever.
- e) Write the Biochemic indications of Kali Mur.
- f) Describe the indications of Hepar Sulph in Skin affections.

3. Short answer Questions (Solve any 4 Out of 6) : [4 × 5 = 20]

- a) Describe the Biochemic indications of Natrum Sulph.
- b) Describe the indications of Sepia in female reproductive tract affections.
- c) Describe the glandular affections of Conium Maculatum.
- d) Describe the indications of Croton Tig in Diarrhoea.
- e) Describe the characteristic guiding indications of Theridion.
- f) Describe the A/F and modalities of Natrum Carb.

4. Long Answer Questions (Solve any 2 out of 4) : [2 × 10 = 20]
- a) Compare and contrast indications of Digitalis and Cactus Grandiflorus in Heart affections.

~~OR~~

- b) Compare and contrast indications of Acetic Acid and Apocynum in dropsy.
- c) Compare and contrast indications of Spongia and Drossera in cough.

~~OR~~

- d) Compare and contrast indications of Nux Vomica and Ipecac in Vomiting.

Long Answer Questions (5,6,7) (Solve any 1 out of 3) : [1 × 20 = 20]

5. Describe the characteristic group indications of Acid group of remedies. Write in detail the drug picture of Nitric Acid.
6. Define Homoeopathic Materia Medica. Describe in detail the scope and limitations of Homoeopathic Materia Medica.
7. Describe in detail the drug picture of Calcarea Carb.

 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 Out of 6): **[4 × 5 = 20]**

- a) AIDS related complex (ARC)
- b) Down's syndrome
- c) Sleep Apnoea
- d) Hypothermia
- e) Cause of Hematemesis and Malaena
- f) Causes and clinical features of Hepatic Encephalopathy

3. Short Answer Questions (Solve any 4 out of 6) : **[4 × 5 = 20]**

- a) Indications of Opium in Constipation
- b) Indications of Aconite in Bronchopneumonia
- c) Indications of Hepar Sulph in Liver abscess

- d) Indications of Ant Tart in Bronchitis.
- e) Indications of Nat Carb in Sunstroke.
- f) Indications of Chelidonium in Hepatitis B.

4. Long Answer Questions 4 (Solve any 2 Out of 4): [2 × 10 = 20]

- a) Discuss Cholelithiasis with respect to clinical features, complications, miasmatic background and chronic prescribing

OR

- b) Discuss Irritable Bowel Syndrome with respect to causes and clinical features. Add note on miasmatic background
- c) Discuss Pneumonia with respect to Aetiology, clinical features, miasmatic background and indication of two homoeopathic drugs

OR

- d) Discuss in details Hepatitis B with respect to clinical features and complications with concept of susceptibility.

Long Answer Questions (5,6,7) (Solve any 1 Out of 3) : [1 × 20 = 20]

- 5. Discuss in detail Ulcerative Colitis with respect to clinical features, investigations, miasmatic understanding and scope and limitations.
- 6. Discuss in details Bronchial Asthma with respect to definition and types, Investigations in detail, scope and limitations, acute prescribing.
- 7. Discuss in details Ascites with respect to causes, symptoms and signs, acute prescription and auxiliary mode of treatment

Fourth B.H.M.S. (2015) Examination, (Phase - III) Winter - 2021
PRACTICE OF MEDICINE - II (Paper-II)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory.**
 - 4) The number to the **right** indicates **full** marks.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (Solve any Four out of six): [4 × 5 = 20]

- a) Psoriatic arthritis.
- b) Ichthyosis.
- c) Define and differentiate Marasmus and Kwashiorkor.
- d) Cardiogenic shock.
- e) Clinical features of parkinson's disease.
- f) Mania.

3. Short answer questions (Solve any four out of six) : [4 × 5 = 20]

- a) Belladonna in measles.
- b) Baryta carb in senile dementia.
- c) Muratic acid in scurvy.
- d) Lithium carb in Gout.
- e) Cantharis in Urinary tract infection.
- f) Ignatia in Hyperthyroidism.

4. Long answer questions (Solve any two out of four) : [2 × 10 = 20]

- a) Give classification of leprosy with clinical features of each.

OR

- b) Describe aplastic anaemia with its miasmatic background and auxillary mode of treatment.

- c) Describe clinical features of secondary syphilis with its miasmatic understanding.

OR

- d) Discuss causes of Nephrotic syndrome with indications of 2 homoeopathic drugs.

Long answer questions (5,6,7) (Solve any one out of three) : [1 × 20 = 20]

5. Discuss in detail epilepsy with respect to: classification, diagnosis, acute prescription and auxillary mode of treatment.
6. Discuss in detail angina pectoris with respect to :Types investigations, Acute prescription and miasmatic understanding.
7. Describe Addison's disease with respect to clinical features, Addisonian crisis, investigations, acute prescription and chronic prescription.
